Sustainability

„We see it as our responsibility to understand, implement and continuously develop sustainability as a whole.“

01

The first important step

Creating awareness

We all live on this planet!

Every contribution counts and every decision leaves its mark – we all need to be aware of this. That's why we like to be inspired by the saying:

“Many small people doing many small things in many small places can change the face of the world.”

02

What we focus on

What sustainability means at vipur

Sustainability must no longer remain a buzzword in the company but must be actively practised by all employees – and we do this every day at vipur, because sustainability affects us all!

We place three areas at the centre of our actions:

Mobility

Health

Social

As vipur employees, we want to do justice to our social skills and demonstrate them to the outside world. Respectful treatment of ourselves, others and our environment is always very important to us.

CORPORATE

RESPONSIBILITY

03

Our goals

What we want to achieve

To see the United Nations' 'Agenda 2030' as a guideline, to engage with it and to implement and support it in the best possible way – that is our goal.

SUSTAINABLE DEVELOPMENT GOALS

3 GOOD HEALTH AND WELL-BEING

Goal 1:

We want to raise awareness of the need to make healthy and sustainable choices in everyday life and want to support others in doing so – that is our goal.

10 REDUCED INEQUALITIES

Goal 2:

We want to recognise inequalities and actively counteract them – social justice and education are practised and regularly promoted – that is our goal.

13 CLIMATE ACTION

Goal 3:

The European goal is to significantly reduce greenhouse gas emissions and support the protection of biodiversity. We want to make an essential contribution to this – that is our goal.

04

Our contribution

We take responsibility

Accessibility & Mobility

Accessibility and mobility are important as they provide access to essential areas of life.

Education & Social Affairs

Education and social affairs are two of the key elements for a well-functioning society.

Office Life & Health

Our own health and a satisfying job are the basic prerequisites for maintaining our personal existence.

Rethinking, informing ourselves, implementing new ideas – we take the time to do this, because responsibility starts with our own actions.

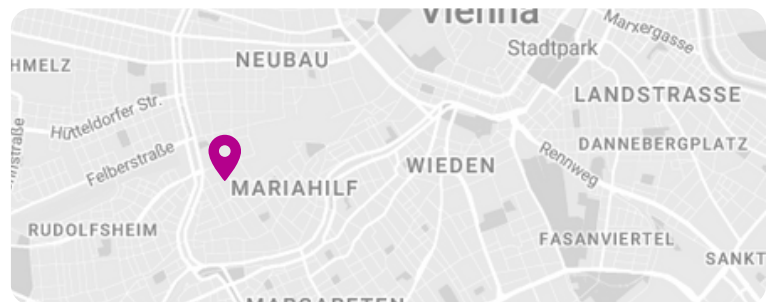

Accessibility & Mobility

Good accessibility and active movement are our approach.

Excellent connections to the public transport network:

Our vipur office is in the heart of the city of Vienna and is in the immediate vicinity of Vienna's Westbahnhof railway station and the underground network.

Integrating active movement into everyday life:

Employees and customers are always welcome to cycle at vipur. We ourselves use the very well-developed Viennese cycle paths almost every day for our commute to work, our errands and deliveries. Our generously designed office offers enough space to park the bike safely.

We use environmentally friendly modes of transport for our climate and our health.

Education & Social

Our key to a better future is passing on knowledge and working towards a social balance.

It is our task to pass on acquired knowledge and the resulting experience to the next generation.

Lectures and filtration experiments at universities, including the supervision of Master's theses, are among my tasks as Managing Director of vipur. Creating a protected space for the exchange of knowledge and research is a key sustainability issue for us.

We are fully committed to this.

It is our task to stand up for people who have been disadvantaged by life.

At vipur, we are honoured to support charitable organisations and educational institutions in Vienna. At the same time, we are an annual sponsor of the Lions Club St. Pölten in favour of needy families in Austria.

For us, looking, acting and helping go hand in hand.

Office life & Health

Sustainable behaviour in everyday life is a basic prerequisite for our wellbeing and health.

There are many possibilities and contributions that together make our everyday office life more sustainable and promote health.

Our ergonomic workstations and bright, green, quiet offices fulfil all our requirements for our personal wellbeing at work. Sustainable behaviour can be implemented here on a daily basis:

We avoid unnecessary printouts, pay attention to the packaging material and the type of dispatch routes. Regional and sustainable shopping is easy to do without a car – but even little things like collecting our coffee grounds for our own plants round off a sustainable working day, because every contribution counts.

Developing mindfulness starts with yourself.

05

Our implementation

What we have realised so far

2022

since 2022

Redesign of the vipur office with ergonomic workstations for all our employees

since 2022

Sustainability as an integral part of our corporate culture

summer 2022

Participation in and sponsorship of the 'LionsClub St. Pölten Jakob Prandtauer' golf tournament – financial support for families in need in Austria

2023

since 2023

Supporting activities in the field of education – Teaching at the University of Applied Sciences, personal supervision of Master's theses

summer 2023

Participation in and sponsorship of the 'LionsClub St. Pölten Jakob Prandtauer' golf tournament

2024

- summer 2024 ● Participation in and sponsorship of the 'LionsClub St. Pölten Jakob Prandtauer' golf tournament
- autumn 2024 ● Fixed mailings by email from the Caritas initiative 'füreinander' – regular support for various aid campaigns
- autumn 2024 ● Visit to the 'Sustainability Week of the Vienna Chamber of Commerce' – presentations, networking and webinars on the topic of sustainability
- autumn 2024 ● Attendance at the 'eMOKON/E-Mobility' conference
- winter 2024 ● Participation in the 'Reverse Advent Calendar' campaign organised by the 'füreinander' initiative

2025

- spring 2025 ● Participation in the 'füreinander' campaign regarding women's shelters in Vienna on the occasion of International Women's Day on 8th of March
- summer 2025 ● Participation in and sponsorship of the 'LionsClub St. Pölten Jakob Prandtauer' golf tournament
- summer 2025 ● Switch to sustainable cardboard boxes, adhesive tape, delivery note bags and filling materials
- summer 2025 ● Participation in the 'Sport- und Spiel-Ausstattungsaktion der Österreichischen Schulsporthilfe' – financial support for GRG Amerling-Gymnasium Nr 6, 1060 Vienna
- summer 2025 ● 'Speak Out Festival – futurezone', attendance of lectures and workshops on the topic of sustainability
- summer 2025 ● Implementation: vipur Sustainability Presentation and Booklet
- autumn 2025 ● Participation in several webinars and lectures at the 'Sustainability Week of the Vienna Chamber of Commerce'

06

Our invitation

A common path

Taking responsibility starts with our own actions and we invite everyone to do the same.

Let's listen to each other.

Let's inspire each other.

Let's be innovative and courageous at the same time.

Let's look where others look away.

07
